

To whom it may concern,

I am writing in response to the proposal of converting translators to LPFM station. I currently listen to K-LOVE radio on a translator in Central Oregon. It is typically the only station I listen to; it is a very positive station to have. Many of the people in my area listen to it also or its sister station AirOne. There is a very limited source of programming like what is offered from these stations and would impact my area greatly if it was not available any longer. I know many people tune in after work to relax and let the stress of the day dissolve away with the encouragement they receive from this station, I do. It is a good service to have in the community, and the loss would affect more than those who speak up about it. Thank you for your time, and for listening to the concerns of the people you serve. Sincerely Jennifer
